

SC 530

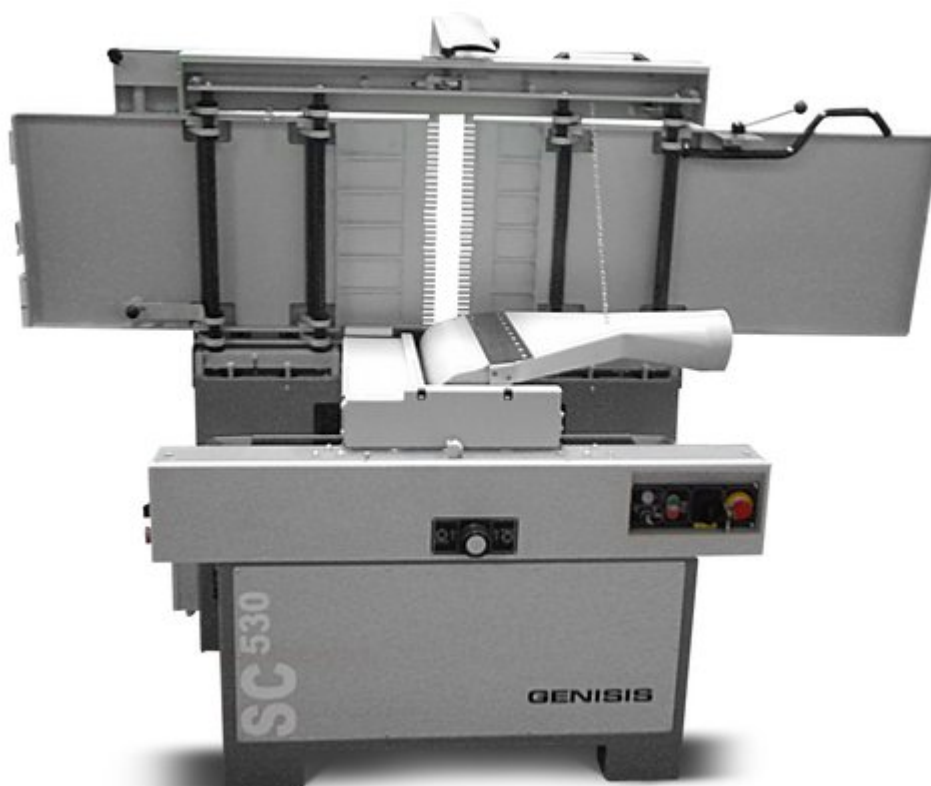

INFORMATION

Industrial quality combined planing and thicknessing machine with both planer tables lifting simultaneously to ensure easy access when thicknessing and efficient extraction from the cutter block.

SC		530
Length of cutter roller	mm	530
Diameter of cutter roller	mm	120
Speed of cutter roller	rpm	5000
Motor power	kW	5,5
Total length of tables for planer	mm	2350
Legth of table for thickener	mm	1000

Height of workpiece for thickener	mm	3 - 250
Max. removal of workpiece	mm	5
Speed of feeding for thickener	m/min	6 / 12
Dimension of ruler	mm	1300 x 180
Weight	mm	850

The machines have various options available including;

- Powered raise and lower of the thickness bed

- Idle rollers in the thickness bed
- TERSA cutterblock
- Upgraded motor sizes

£8,170 exc. VAT
